

CAN I AFFORD COLLEGE?

5 steps to make college more affordable.

1 Use an online financial calculator to determine your current fiscal situation.

2 Consider all the expenses inherent to the school you choose, whether that's online or in-person, as well as the hidden costs of books and transportation.

3 Completing the FAFSA® is the first step to receiving financial aid for college. Several deadlines may apply, but the federal one is June 30.

4 Research available grants, scholarships and loans. Aid can be available based on need and merit, and sometimes you can secure both.

5 Save both time and money by exploring other ways to pay for college. Cost-saving options include employer tuition benefits and alternative credits.
